

## COMBINED STRENGTHS THAT BOOST PRODUCTION

Afinitas and mbk have been partnering since 1990, and Afinitas is the exclusive North American distributor of mbk equipment. Together we bring producers world-class solutions for pipe production machinery and leading-edge reinforcement cage equipment.

### Select Afinitas Concrete Pipe Machines

HawkeyePedershaab ePak Packerhead Machine

Electronic direct-drive packerhead machine for mass production of concrete pipes with or without bell sockets.

BFS Souveraan Packerhead Machine

Fully automatic packerhead machine with four layers of rollers for optimum compaction.

HawkeyePedershaab Mastermatic XT Machine

Automated production using VIHY rising core technology for reinforced and non-reinforced pipe production.

HawkeyePedershaab PipePlus Machine

Three-station turntable that delivers versatility and high output. Its robust capabilities make it perfect for all producers.

HawkeyePedershaab Multicast Machine

One of our most versatile machines for manufacturing all types of precast concrete products.

Afinitas Prima Wetcast Automation System

Automation that brings assembly-line efficiency to wetcast production.

## COMBINED STRENGTHS THAT BOOST PRODUCTION

Afinitas and mbk have been partnering since 1990, and Afinitas is the exclusive North American distributor of mbk equipment. Together we bring producers world-class solutions for pipe production machinery and leading-edge reinforcement cage equipment.

### Select mbk Cage Welding Machines

mbk BSM Cage Welding Machine

High output, automated solution for the production of reinforcement cages.

mbk ESM Cage Welding Machine

Cost-effective solution for increased production of reinforcement cages.

mbk ISM Cage Handling Machine

For the production of reinforcement cages for the manhole and concrete pipe industry.

### mbk Mesh Welding Machines

mbk Mesh Welding Machine

Highly precise with a broad range.

#### Solutions to Meet Your Project Needs:

**MSM-L** - Ladder

**MSM/S** - Small format and strip meshes

**MSM-B** - Reinforcement meshes, flat elements, frame profiles and boxes

**MSM-M** - Fully automated production of CAD-based reinforcement meshes

**MSM-Automation** - Automation solutions for mesh welding machines
