BASE MATS

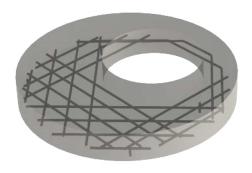

Every Haala Industries' Rebar Mat is designed and built to give you the convenience and confidence expected of the industy's leading metal fabricator, but they also come with a number of unique advantages.

Rebar Mat Advantages:

- Speed up cycle time for placement of concrete
- Built with All-American sourced steel
- Reduce labor demand and costs connected to tying mats in the plant
- Meet the national, state and local steel requirements for your specifications
- Welded vs. Tied, for superior framework reliability
- Designed based on specific placement requirements to ensure accuracy
- Mats are palletized for convenient storage and delivery

Haala Industries' Cover Mats are rebar and deformed bar reinforcement mats that can be designed to meet your specific loading applications. Cover mats can be made for round or square applications and are available with eccentric or centered manhole openings.
