PIPE TIES / TIE RODS

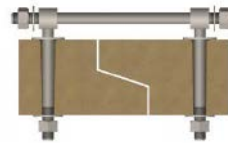

Haala Industries manufactures Pipe Ties for all sizes and styles of concrete pipe. Pipe Ties are also known as: Connecting Bolts, Joint Restraints & Tie Rods. We stock a complete selection of hot dip galvanized pipe ties designed to meet a variety of install applications. Pipe Ties are designed to hold concrete pipe sections together, not for pulling sections tight.

BELL END SPACER

Pipe Ties / Tie Rod Advantages:

- Built with All-American sourced steel
- All units are galvanized to ASTM F2329 (inquire for alternative finishes and material)
- Fabrication is managed in a quality-controlled environment to ensure consistency
- Each individual item is preassembled as a quality control measure to ensure threads and fasteners are ready for on-site application
- Haala industries preassembles, bundles, and places joint ties in a container allowing your facility to easily store and transport to jobsite
- Haala industries maintains stock for all standard tie rods (catalog items) reducing lead times for our customers
