

## Econo Bolster — Made in USA

Our Econo-Bolster is a slab bolster molded from concrete gray PC/ABS recycled material. Each piece measures 2'6" from connection to connection and is stackable, allowing precasters to use a single product for both upper and lower bolster applications.

### Key Benefits

- Meets BABA requirements.
- Cover 1" to 3"
- Use one product for upper and lower bolster applications.
- Made from recycled material.

Part Number	Cover (in)	Reinforcement Type	Qty/Box	Box/Skid
1653	3/4	Rebar, Wire	70	30
1654	1	Rebar, Wire	70	30
1655	1 1/4	Rebar, Wire	70	30
1656	1 1/2	Rebar, Wire	60	30
1657	1 3/4	Rebar, Wire	60	30
1658	2	Rebar, Wire	50	30
1659	2 1/4	Rebar, Wire	50	30
1660	2 1/2	Rebar, Wire	50	30
1661	2 3/4	Rebar, Wire	40	30
1662	3	Rebar, Wire	40	30

## Slab Bolster — Imported

Economical plastic Slab Bolster provides a strong, stable support and spacing for rebar in wall and slab applications.

### Key Benefits

- Height 3/4" to 3"
- Length 30"
